24/7 Access to Physicians by Phone, Video or Email

Save thousands a year by staying out of the emergency room or doctor's office.

Tele-WellSM is an affordable solution to the Challenge of healthcare access. We provide you and your family with round-the-clock access to U.S.-based, licensed physicians for telephone, video and email medical consultations. Regardless of your location, you can connect with a physician in real-time for treatment or diagnosis of common conditions.

www.designaplannow.com

Why Tele-WellSM?

On-demand Healthcare: No more waiting rooms with sick people, no driving, no babysitter; connect to a doctor instantly via phone or email.

Convenient: You get round-the-clock access to care when you need it, whether you're traveling, at work, or in your home 24/7, 365 days a year.

Save Money: Save hundreds or thousands of dollars by avoiding unnecessary doctor's office or ER visits.

It's Easy: Our process is simple, secure, and electronically maintains your medical records.

Our network of physicians: U.S. based, licensed and experienced.

Did You Know?

- Up to **70%** of doctor office visits and **40%** of emergency room visits are unnecessary. Many of these conditions can be handled effectively with a telemedicine consultation.
- In 2007, U.S. patients spent an average of **4 hours** waiting in the hospital emergency room
- The average Doctor office visit wait time is **20.5 days** to schedule an appointment

When to Use Tele-Well

Doctors can be hard to reach, illnesses can occur in the middle of the night, or at work and sometimes you just have a question that doesn't require an in-person consultation. In all of those circumstances telemed is a convenient solution. Our telehealth service is an always-accessible complement to primary care.

Common Conditions

In some cases, a visit to the doctor's office can be avoided, saving time and money. Our goal is to make sure you're equipped with all the tools and resources you need to reduce the cost and frequency of in-person consultations. Part of that effort involves the delivery of care for a growing list of common conditions by qualified physicians via video, phone or email.

Acid reflux
Allergies
Asthma
Bladder infection
Bronchitis
Cold & Flu

Constipation
Depression
Diarrhea
Diabetes
Fungal Infections
Gout

Heartburn
Hemorrhoids
High blood pressure
Infections
Nausea

Pneumonia (mild)
Rashes
Sinus conditions
Sore throat
Thyroid conditions
Urinary tract infection

Types of Consultations

General Medical Advice / Consults / Diagnosis / Prescriptions

There are plenty of online Q & A forums, but where medical problems are concerned, the "community" doesn't have the qualifications to give you reliable answers. You need real medical advice from a real doctor. If you have a medical question that only a doctor can answer, we offer the convenience of on-demand access to physicians for general advice and recommendations regarding a range of routine medical conditions. Consultations are available through our secure messaging system or over the phone.

24/7 Appointments are arranged for Consult level with Diagnosis and Prescription Services

Physician Network

At Tele-WellSM, we're committed to providing you with highest quality care. This commitment applies to all aspects of your member experience, but it begins with who we select as our caregivers. That's why we've chosen the best Physician Networks and medical professionals specializing in telemedicine services. This organization has established a rigorous screening and credential verification process for each and every physician applicant, ensuring they meet the highest standards of qualification. In addition, the network physicians are continually reviewed to ensure they're being attentive to each of our patients' needs, conducting thorough examinations, and providing individualized diagnosis and treatment plans.

Prescription Policy

Physicians providing consultations for members offer prescriptions for a wide range of products that deliver direct medicinal value. These include, but are not limited to, drug classes such as antibiotics and antihistamines. Convenience prescriptions for maintenance medicines may also be obtained in cases where a member is in transition to a new insurance plan or doctor. Prescriptions will only be issued when indicated and approved by a physician. In the event a physician does prescribe medication, he/she will usually limit the supply based on their medical judgement. Patients with chronic illnesses should visit their primary care physicians or other specialists for extended care. Physicians do not issue prescriptions for substances controlled by the DEA, non-therapeutic use, and/or those which may be harmful (potential for abuse or addiction).
